## Familiarisation of Plant Competency, Operation and Mock Police and Criminal Evidence (PACE) Interview

11th October 2016

The safe operation of plant on construction sites is paramount. The event provides advice on the standard of competence of operators and effective management of plant to ensure safe operation.

There will be presentations on the understanding of the plant card schemes that are available in the UK. Including an appreciation that a plant card is not all that is required to prove competence, it must also include recognition of other factors; Skills, Knowledge, Experience and Training.

We will look at how to manage and supervise construction plant on construction sites as well the importance of proper planning to ensure the safety of personnel and plant during these operations.

There will be shared learning and best practice from larger businesses that is also suitable for Small to medium sized providers and operators of plant.

The morning will also include a mock PACE interview where a plant operator is interviewed by the HSE under caution as a result of causing serious injury to a fellow worker.

### **BOOK NOW! As places are limited**

For further information call Belinda Hall:  
0121 607 6200 or
