Help for the industry – from the industry
Introduction

In April 2015, the Construction (Design and Management) Regulations (CDM) were amended with important changes to the requirements for managing safety and health related risk on a project, especially at the pre-construction phase.

This event will be a chance for construction professionals to hear 2 x HSE Construction Inspectors answer questions about the CDM 2015 Regulations. The questions will be around challenging/seemingly unclear issues regarding the CDM 2015 Regulations. The questions will have been submitted beforehand by Members of the N&W Yorkshire Working Well Together (WWT) Group. If time permits, the HSE Inspectors will take questions from the audience on the day of the event. This event is a follow-on event to a N&W Yorks WWT CDM 2015 event which was held in March 2016 at this venue.
